ANZAC CENTENARY

Each Year we recognise the ANZAC tradition, which was forged 100 years ago at Gallipoli on 25 April, 1915. On **Wednesday 26 April** our school will be conducting a commemorative ANZAC Day service to recognise this significant event in Australia's history. I would like to invite you to join us on this occasion and also extend this invitation to any family members who have served or are presently serving in the Australian Defence Forces. The service will commence at **10.00am** in the assembly hall. We encourage the children to bring flowers on this day. The flowers will be laid on the steps to the stage in the Assembly Hall along with traditional wreaths as a mark of respect for the ANZACs

If you would like your child to participate in this part of the service please send some flowers with your child to school on this day.

TEACHING INTERNET SAFETY

Many students will use the internet every day whether it is in class or at home, but a lot of young students and even some older will often be unaware of the dangers of being online. Surfing the web is great fun and, with caution, can be a safe and secure environment for your students. There are just a few things they should remember.

1. The internet is forever

Everything you write, upload or post on the internet is stored there forever and most of the time it is completely public. Deleting something that you've put on the internet will not always make it completely disappear. A trace of data will be left.

2. Nothing personal

Don't put anything personal online, such as your full name, phone number or address. Having personal information situated online will leave you vulnerable to attacks by people both online and offline. To check if you have anything online that you don't want, try googling your name and phone number or address and see what the search results find. If you are on social media, have a trusted friend check your account from theirs.

3. Don't talk to strangers

Whether it is in a forum, messenger app or chat room, do not talk to anyone you don't know. This goes for photos as well. Never send photos to people you've met online. The general rule for online conversations is to stop talking to anyone who is making you feel uncomfortable or unsafe.

School Photos

SCHOOL PHOTOGRAPHS WILL BE TAKEN ON: Wednesday 3 May

School photographs are scheduled to be taken by Advancedlife Photography.

Whilst an envelope and flyer will be distributed shortly, if possible it is our preference that ordering be completed online to reduce administration and potential security issues related to the return of cash and envelopes on photo day.

WWW.ADVANCEDLIFE.COM.AU

Orders for packages and sibling photographs can be placed securely online at www.advancedlife.com.au using our school's unique 9 digit Online Order Code.

Opportunity Class Placement for Year 5 2018

Opportunity classes cater for highly achieving academically gifted students who may otherwise be without classmates at their own academic and social level. These schools help gifted and talented students to learn by grouping them with other gifted and talented students, teaching them in specialised ways and providing educational materials at the appropriate level.

Applications for opportunity class placement are considered mainly on the basis of the Opportunity Class Placement Test results and school assessment scores. The Opportunity Class Placement Test will be held on **Wednesday 26 July 2017**.

If you would like to have your child considered for Year 5 opportunity class entry in 2017, you need to apply soon. You will need to apply on the internet using a valid email address (not the student's email address).

Detailed instructions on how to apply online will be available from **26 April 2017** in a printed application information booklet and at www.schools.nsw.edu.au/ocplacement. The application website opens on **26 April 2017** and closes on **12 May 2017**. No late applications will be accepted.

There are no paper application forms. If you do not have internet access, you could apply at a public library. If you have a disability that prevents you from using a computer, you can contact the Unit for assistance after **26 April 2017**.

You must submit only ONE application for each student.
